BLOCK E – IDENTIFICATION OF AFFILIATION

Indicate whether the CHP holder is affiliated with an individual, business, or other entity **not listed in Block D** at a 10 percent or greater level of ownership or control. Information regarding affiliation is required to enforce CHP ownership caps for entities that may directly or indirectly control the use of CHPs through subsidiaries or other means.

Affiliation means a relationship between two or more entities in which one directly or indirectly owns or controls a 10 percent or greater interest in, or otherwise controls, another; or a third entity directly or indirectly owns or controls a 10 percent or greater interest in, or otherwise controls, both. See instructions for the full definition.

Control may include:

- ◆ Ownership of more than 10% of the entity;
- ◆ The right to direct the business of the entity;
- ◆ The right to limit the actions of or replace the chief executive officer, a majority of the board of directors, any general partner, or any person serving in a management capacity of the entity;
- ◆ The responsibility to procure insurance or assume liability for the entity; or
- ◆ The right to direct the operation of the CHP holder’s business.

The term "control" **does not include** the right to simply participate in the above actions.

Having read and understood “Affiliation” as defined at 50 CFR 679.2, the applicant declares as follows:

- YES, the permit holder **is affiliated** with one or more entities.
- NO, the permit holder is **not affiliated** with any other entities.

If **YES**, provide the names of the persons or entities that the permit holder is affiliated with at a 10 percent or greater level of ownership or control and their percentage of interest. Names already provided in Block D do not need to be repeated.

If **NO**, the remainder of Block E can be left blank.

Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the [Privacy Act System of Records Notice COMMERCE/NOAA-19](#), Permits and Registrations for the United States Federally Regulated Fisheries.

Excerpt of regulatory definition from 50 CFR § 679.2 – Definitions:

“Affiliation ... means a relationship between two or more individuals, corporations, or other business concerns, except CDQ groups, in which one concern directly or indirectly owns a 10 percent or greater interest in another, exerts control over another, or has the power to exert control over another; or a third individual, corporation, or other business concern directly or indirectly owns a 10 percent or greater interest in both, exerts control over both, or has the power to exert control over both.

(1) What is 10 percent or greater ownership? For the purpose of determining affiliation, 10 percent or greater ownership is deemed to exist if an individual, corporation, or other business concern directly or indirectly owns 10 percent or greater interest in a second corporation or other business concern.

(2) What is an indirect interest? An indirect interest is one that passes through one or more intermediate entities. An entity's percentage of indirect interest in a second entity is equal to the entity's percentage of direct interest in an intermediate entity multiplied by the intermediate entity's direct or indirect interest in the second entity.

(3) What is control? For the purpose of determining affiliation, control is deemed to exist if an individual, corporation, or other business concern has any of the following relationships or forms of control over another individual, corporation, or other business concern:

(i) Controls 10 percent or more of the voting stock of another corporation or business concern;

(ii) Has the authority to direct the business of the entity that owns the fishing vessel or processor. The authority to direct the business of the entity does not include the right to simply participate in the direction of the business activities of an entity that owns a fishing vessel or processor;

(iii) Has the authority in the ordinary course of business to limit the actions of or to replace the chief executive officer, a majority of the board of directors, any general partner or any person serving in a management capacity of an entity that holds 10 percent or greater interest in a fishing vessel or processor. Standard rights of minority shareholders to restrict the actions of the entity are not included in this definition of control provided they are unrelated to day-to-day business activities. These rights include provisions to require the consent of the minority shareholder to sell all or substantially all the assets, to enter into a different business, to contract with the major investors or their affiliates, or to guarantee the obligations of majority investors or their affiliates;

(iv) Has the authority to direct the transfer, operation, or manning of a fishing vessel or processor. The authority to direct the transfer, operation, or manning of a vessel or processor does not include the right to simply participate in such activities;

(v) Has the authority to control the management of or to be a controlling factor in the entity that holds 10 percent or greater interest in a fishing vessel or processor;

(vi) Absorbs all the costs and normal business risks associated with ownership and operation of a fishing vessel or processor;

(vii) Has the responsibility to procure insurance on the fishing vessel or processor, or assumes any liability in excess of insurance coverage;

(viii) Has the authority to control a fishery cooperative through 10 percent or greater ownership or control over a majority of the vessels in the cooperative, has the authority to appoint, remove, or limit the actions of or replace the chief executive officer of the cooperative, or has the authority to appoint, remove, or limit the actions of a majority of the board of directors of the cooperative. In such instance, all members of the cooperative are considered affiliates of the individual, corporation, or other business concern that exerts control over the cooperative; or

(ix) Has the ability through any other means whatsoever to control the entity that holds 10 percent or greater interest in a fishing vessel or processor.”
