Instructions to Submit Your Saltonstall-Kennedy (S-K) Application to NOAA Fisheries

You must apply online through Grants.gov to submit your S-K application!

• Did you submit a pre-proposal? The full proposal will not be reviewed or evaluated if a pre-proposal was not received and ranked.

• Click “Applicants" tab and select “Apply for Grants”

• Click "Get Application Package"

• Enter the S-K Funding Opportunity Number: NOAA-NMFS-FHQ-2020-2006111

• Select from two options:

1  **Competition ID 2810297** (Contains the Pre-Proposal Package and Instructions)

   **The Pre-Proposal Package**
   Forms: Only the SF-424 and a two page pre-proposal.
   To Download: Click on “Package” tab then for competition ID 2810297 click “Apply” in actions column then download and submit a pre-proposal (due due 60 days after the posting date of the FFO on the grants.gov website

2  **Competition ID 2810296** (Contains the Full Proposal Package and Instructions)

   **The Full Application Package**
   To Download: Click on “Package” tab then for competition ID 2810296 click “Apply” in actions column then download and submit a full proposal (due165 days after the posting date of the FFO on the grants.gov website)
• **Federal Forms**
  - SF-424- Application for Federal Assistance
  - SF-424A- Budget Information- Non-construction Programs
  - SF-424B- Assurances- Non-Construction Programs
  - CD-511- Certification Regarding Lobbying
  - SF-LLL- Disclosure of Lobbying Activities (if applicable)

• **Narratives**
  - Project Summary (limit 2 pages)
  - Project Narrative (limit 20 pages)
  - Budget Narrative

• **Other Attachments**
  - NEPA Questionnaire
  - Data sharing plan
  - Resumes/curriculum vitae (limit 2 pages)

The following information is intended to supplement, not replace, the instructions provided in the S-K Funding Opportunity and the federal grant application forms. This information should help decrease common errors and confusion when submitting federal grant applications for the S-K Program.

**Application Forms and Guidance for Narratives:**

• **Form SF-424 – Application for Federal Assistance**
  - Make sure this form reflects the full dollar value requested. Do not enter any non-federal contributions unless you will provide official matching funds.
  - Start dates are the first of the month and end dates are the last day of the month.
  - Your project should not exceed 24 months in length.
  - Please choose a short, descriptive name for your title. Do not use a generic name such as “SK project.”

• **Form SF-424A- Budget Information of Non-construction Programs**
  - It is particularly important to include an accurate and thorough budget. A complete budget consists of the SF-424A and a budget narrative.
  - Please enter whole dollar amounts on all forms.
  - If providing matching funds, breakdown both the federal funds and your matching share in separate columns in Section B of the form.
- Detail on Object Class (specific cost) Categories:
  a. Personnel: include salary, wage, rate and hours committed to project for each person by job title. Identify each individual by name and position, if possible.
  b. Fringe Benefits: should be identified for each individual. If a fringe rate is greater than 35%, a description and breakdown of the benefits must be provided.
  c. Travel: All travel costs must be listed. Provide a detailed breakdown of travel costs for trips over $5,000 or 5% of award. Include destination, duration, type of transportation, estimated cost, number of travelers, lodging, mileage rate and estimated number of miles, and per diem.
  d. Equipment: equipment is any single piece of non-expendable, tangible personal property that costs $5,000 or more per unit and has a useful life of more than one year. List each piece of equipment, the unit cost, number of units, and its purpose. Include a lease vs. purchase cost analysis. If there are no lease options available, then state that.
  e. Supplies: a detailed, itemized explanation is required for total supplies costs over $5,000 or 5% of the award. Purchases less than $5,000 per item are considered by the federal government as supplies.
  f. Contractual: list each contract or subgrant as a separate item. Provide a detailed cost breakdown and describe products/services to be provided by the contractor. Include a sole source justification, if applicable.
  g. Construction: S-K funds are not to be used for construction projects, such as vessel construction from the ground up level. However, allowable costs for construction could include alterations, upgrades, and renovations to a vessel or a facility to accommodate the workspace proposed for conducting a project objective. All other project-related construction costs should be contractual labor.
  h. Other: list items, cost, and justification for each expense.
  i. Total direct charges
  j. Indirect charges: The budget may include an amount for indirect costs if the applicant has an approved indirect cost rate agreement with the federal government. Indirect costs are essentially overhead costs for basic operational functions (e.g., lights, rent, water, and insurance) that are incurred for common or joint objectives and therefore cannot be identified specifically within a particular project. A copy of the current, approved negotiated indirect costs agreement with the federal government must be included with the application.

If an applicant has not previously established an indirect cost rate with a Federal agency they may choose to negotiate a rate with the Department of Commerce or use the de minimis indirect cost rate of 10% of MTDC (as allowable under 2 C.F.R. §200.414). The negotiation and approval of a rate is subject to the procedures required by NOAA and the Department of Commerce Standard Terms and Conditions Section B.06
  k. Totals of direct and indirect charges

  • Budget Narrative:
- All applications must have a detailed budget narrative explaining and justifying the expenditures by object class (cost) category.
- The budget narrative must accurately describe the budget breakdown of Section B (Budget Category) of the SF-424A form. For clarification and simplicity, it is best to discuss each expense in the order they appear on the SF424A. Include the dollar amounts and how they were derived.
- A spreadsheet detailing expenditures is useful to clarify the costs.
- Ensure that budget information is consistent on all federal forms, project narrative, budget narrative, and any other tables or spreadsheets.
- Double check your calculations!

- **Project Narrative:**
  - Follow the guidance on proposal preparation in the S-K Funding Opportunity to ensure that all required information is included in your project narrative.
    - o Project goals and objectives
    - o Abstract
    - o Summary of potential benefits
    - o Project impacts
    - o Evaluation of project
    - o Need for financial assistance
    - o Federal, state, and local government activities and permits
    - o Project work plan
    - o Project management
    - o Participation by others
    - o Outreach and education
    - o Milestone Chart

- **Example Budget Narrative**

**Personnel (Federal Share), $24,750**

John Doe, project manager, will provide 750 hours of work over the 12 months of the project period, at $25/hr for overall project management, supervision, and reporting. Total: $18,750

Alice Doe, marine resource scientist, will provide 300 hours of work over the 12 months of the project period, at $20/hr for technical support, field work, and data management. Total: $6000

**Fringe Benefits (Federal Share), $3,713**

The fringe benefit rate is 15% of salary. $2,813 covers benefits for John Doe and $900 for Alice Doe. Fringe benefits go toward FICA, medical and dental insurances, retirement and disability. Total: $3,713

**Travel (Federal), $6,600**

Travel will be required for the project scientist to travel to and from the port sampling sites to collect data. Mileage will be charged at $0.33/mile and total mileage (100 round trips) is estimated to be 20,000 miles for a total cost of $6600.
**Equipment (Federal) - none Supplies (Federal), $5,100**

Purchase and use of expendable field and office supplies. Total: $2,600

- Measuring boards ($100 x 20) = $2,000
- Scales = $200
- Baskets ($25 x 4) = $100
- Printing supplies (for letters and reports) = $300

A laptop computer will be purchased to record data in the field and analyze sampling data. Price for laptop is based on current market research. Total: $2,500

**Contractual (Federal), $49,500**

Two contract personnel will be hired to enter data entry, at $16.50/hr for approximately 1,500 hours each over the 12-month project period. Estimate of hours required is based on the agency’s past experience with this work.

**Other (Federal) - none**

**Total Direct Charges: Federal: $89,663 Total Indirect Charges: Federal: $21,300**

(based on established Negotiated Indirect Cost Rate Agreement)

**Total Charges: Federal: $110,963**
